## Quick Tips

Tide Mill Management and Maintenance staff would like to address the issue of the roof leaks, and first and foremost, apologize for any inconveniences. Our Maintenance staff has been working overtime since the weather does not seem to be on our side.

We have confirmed that Mallard Roofing will be completing repairs within the next few weeks.

We will also be fully replacing the roofs on the 709-715 buildings within the near future.

We will gladly provide updates once the completion has been scheduled.

In the meantime, if you have any noticeable leaks or hear any running water within your unit, please do not hesitate to contact our office or file a work order through the Tide Mill online portal.

We thank you for your understanding and patience, and please do not hesitate if you have any further issues or concerns.

We wish you a safe and happy
